I. Overview of San Diego County Redistricting

What Is Redistricting?

- **Federal census conducted every ten years**
- **Census data includes an official population count**
- **Following the census, the Board of Supervisors is required to adjust the boundaries of the five Supervisorial districts, if needed, to equalize population**
- **Governed by federal, state and local law**

Impact of County Redistricting

- **Boundary adjustments may change the supervisorial district in which a resident lives and votes in 2012 through 2021**
- **All County residents have a stake**
- **Scope limited to Board of Supervisors districts**

Redistricting Advisory Committee

**Elections Code 21505 – Board of Supervisors
appoints “advisory only” committee**

Michel Anderson – Chair (District 4)

Adam Day – Vice Chair (District 5)

Deanna Weeks – Secretary (District 2)

Andrea Skorepa – member (District 1)

Dennis Ridz – member (District 3)

Redistricting Advisory Committee

Duties include:

- **Review and analyze census and demographic data, proposed redistricting plans and public input**
- **Hold at least one public hearing in each district, and at least one public hearing before submission of proposed redistricting plan(s) to the Board**
- **By June 28, 2011, submit to the Board no more than three proposed redistricting plans**

COMPLIANCE

Federal Law – the Voting Rights Act

Section 2 (42 U.S.C. § 1973)

(a) No voting qualification or prerequisite to voting or standard, practice, or procedure shall be imposed or applied by any State or political subdivision in a manner which results in a denial or abridgement of the right of any citizen of the United States to vote on account of race or color, or in contravention of the guarantees set forth in (42 USC 1973b(f)(2) [*language minorities, e.g. Hispanics*]) ...

Federal Law – the Voting Rights Act

Section 2 (42 U.S.C. § 1973)

(b) A violation of subsection (a) of this section is established if, based on the **totality of circumstances**, it is shown that the political processes leading to nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) of this section in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. ...

Federal Law – the Voting Rights Act

Section 2 (42 U.S.C. § 1973)

...The extent to which members of a protected class have been elected to office in the State or political subdivision is one circumstance which may be considered: Provided, That nothing in this section establishes a right to have members of a protected class elected in numbers equal to their proportion in the population.

Legal actions alleging Sec 2 violations

Three “pre-conditions” must be met before analysis of the “totality of circumstances” ...

1. Sufficiently large and geographically compact minority to constitute a majority in a redrawn district
2. Minority is politically cohesive
3. Majority bloc voting defeats minority's preferred candidate

VRA Impact on redistricting process?

No “racial gerrymandering” to create majority-minority districts or intentionally discriminate against minorities

So...

Listen to public input

“communities of interest”

“traditional redistricting principles”

...then create plans

...Elections Code § 21500

- Topography
- Geography
- Cohesiveness, contiguity, integrity and compactness of territory
- Community of Interests

§21500 – Topography and geography

Natural and man-made features form natural divisions

§21500 – Cohesiveness, contiguity, integrity

Phrase not interpreted yet by courts for § 21500,
but in the context of state redistricting:

“The constitutional requirement of ‘contiguity’ is not an abstract or geometric technical phrase. It assumes meaning when seen in combination with concepts of “regional integrity” and “community of interest.”... (for example) the preservation of the “integrity of California’s basic regions (coastal, mountain, desert, central valley and intermediate valley regions)...”

§21500 - Compactness

California – the “functional view” – ability of citizens to relate to each other, transportation and communication availability... rather than strictly geometric shape;

However, lack of geographic compactness may indicate racial gerrymandering: “appearances do matter”

In any event, compactness of shape is subordinate to equal population and VRA compliance

§21500 Community of Interests

Social and economic interests common to the population of an area

Interests in common to an urban area, rural area, industrial area, agricultural area.

Interests in common to areas of similar living standards, transportation facilities, work opportunities, same media market relevant to the election process

Political subdivisions

Redistricting Legal Overview -

- ❑ Equal populations in districts
- ❑ Do not violate Sec 2 of the Voting Rights Act
- ❑ Two districts as outside the City of SD as possible
- ✓ Community of interests
- ✓ Compactness
- ✓ Cohesiveness, contiguity, integrity

IV. Public Submissions: Suggestions and Data Plans

What is a Plan?

- A **Plan** is a data file that includes a map and demographic data.
 - Many incorrectly use the terms **Plan** and **Map** interchangeably
- A Map is a visual depiction of plan data that has layers:
 - Geography
 - Parks and water areas
 - Streets
 - Census Tracts
 - Census Blocks
 - Etc...
- You cannot create a plan without a base map, but you can create a map without district data

Public Plan Submissions

- “How to submit a plan” guidelines on the Redistricting web pages
 - Click the Submit/View Plans Link
- Redistricting plan proposals must comply with the County’s established 2011 [Criteria and Guidelines](#)
- Redistricting plan proposals must include the following when submitted:
 - Completed Plan Submittal Form
 - Plan Submittal Electronic files

Plan Submittal Form

Plan Submittal Files

- A numerically ordered list of each **Census Tract AND Proposed District**
- Either **Census Tract Name OR Tract Number**
 - **Tract Name** is a 1-5 digit code, i.e.
197.01
 - **Tract Number** is an 10 digit code, i.e.
6073019701

Splitting Tracts

- Submit a numerically ordered list of each Census Tract and Proposed District

AND

- A separate numerically ordered list of each Census Block and Proposed District for each Census Tract that is to be split.

Splitting Tracts, continued

File must include:

- Block Number/Proposed District
- The Tract being split DOES NOT NEED TO BE IDENTIFIED on this list.
- This file should only contain the Block Number/Proposed District where the proposed plan calls for split tracts

Example

Row 1	23456789101112	1
Row 2	23456789101114	2
Row 3	98765432123456	3
Row 4	98765432123457	5

File Format

All plans should be submitted using MS Excel or a comma separated value file format.

- For example: .csv, .xlsx or .xls. (Excel format)

Data References

Currently the following are available:

- Tract Number to Name index
- Block Number by Tract Number index
- Current Districts with 2010 Tract Numbers
- Current Districts with 2010 Block Numbers

Custom reports will be available soon:

- Tract Name/Tract#/Tract Pop/District
- Block#/Block Pop/ District
- Tract Name/Tract#/Tract Pop/Block#/Block Pop/District
